# 37SL863

## Full HD, 100 Hz, LED-TV

With features such as Resolution+, the 100-hertz technology, Toshiba Places and Personal-TV the 37SL863 (diagonal screen size of 94 cm) offers maximum convenience and image quality. Additionally the SL863 series offers a tuner for DVB-S.

FULL HD 1920x1080

Full HD televisions are capable of displaying the full high-definition resolution level of 1920 x 1080 pixels.

LED TV

In LED televisions, LEDs (Light Emitting Diodes) are used for backlighting purposes. When LEDs are used in televisions, they vastly improve picture quality and lower power consumption.

Resolution+

"Resolution+" technology improves the picture quality produced by conventional image signals by means of a three-stage process that employs edge smoothing and sharpness enhancement techniques. This upgrades the quality of SDpictures to one that is comparable with HD.

USB

With this TV you can enjoy music, videos and images per USB connection.

MULTITUNER

This device offers an integrated multituner with DVB-C, DVB-T, DVB-S/S2 and an analogue reception.

Product design and specification subject to change or modification without notice. Specification correct at time of publication. Please check specification with retailer prior to purchase.
